KIANGSI COAL PRODUCTION TO BE INCREASED

The strike at the T'ien-ho coal mine in Chi-an, Kiangsi, has been settled by the management, which has agreed to pay the workers 40 percent of their wages in silver and the rest in gold yuan. To speed up production the company has built a light rail line 5 miles long to its wharf. Sixty cars, each capable of carrying 0.7 ton, will be put into service to transport the coal from the mine. Two trips a day will be made. Production will be brought up to 100 tons a day.
